## Invitation to sponsor the Samford Show

13th & 14th July 2019

2019 heralds the Samford Show's hosting of the "rewired" project which helps re-fence North Queensland properties that have been devastated by the floods.

Every dollar from our entry fees will be donated towards "rewired" which is helping Queensland graziers get back on their feet faster.

### The rewired project allows:

- Families to get back on their feet
- Re-fencing allows families to rebuild their herd
- Re-fencing allows us to move drought-stricken cattle to North Qld paddocks
- Re-fencing allows businesses to rebuild

### How can you help

1. Help us promote the rewired project to your partners, suppliers and customers
2. You can purchase fencing supplies from our great rural farm supplies to go on the next truck up North
3. You can donate cash that will be used to purchase supplies on your behalf

### Transparent

- 100% of donations go toward the fencing supplies and transporting the fencing supplies
- We have negotiated great pricing from our suppliers to make your dollar go further
- Trucks are regularly being sent to affected properties
- Recipients are genuine and must go through a process to be allocated fencing

Warm Regards,

*Carolyn Grant*
